IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER LEAD AND COPPER MONITORING

City of Gregory has violated the monitoring and reporting requirements set by Texas Commission on Environment Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customer you have the right to know what happened and what we are doing to correct the situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the period of July 1 through September 30, 2022, we did not collect our Lead and Copper samples in a timely manner. Even though they were submitted and results were compliant, they did not meet the submittal deadline as required. Twenty (20) samples were collected and tested but did not meet the September 30, 2022 deadline.

We are now working to correct the problem by now doing a follow-up sampling on this date of February 15, 2023. For more information, please contact Norma S. Garcia, City Secretary, at 361-643-6562 or by email at norma.garcia@gregorytx.com.

Please share this information with all other people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by:

A handwritten signature in blue ink that reads "Norma S. Garcia". The signature is written in a cursive style and is positioned above a horizontal line.

Norma S. Garcia, City Secretary
